

## Profile Area ICT Young Researcher Award

The profile area “Information and Communication Technology” at RWTH Aachen University intends to support young researchers in the area of ICT by introducing an “**ICT Young Researcher Award**”. The yearly award will be given to one or more persons affiliated to our university on Bachelor, Master or Ph.D. student level who contributed significantly to ICT-related research results and show the potential to further improve the international visibility of ICT research at RWTH Aachen University.

The award consists of **3000 Euros**, which have to be used for research-related purposes, e.g., conference travel expenses or acquisition of equipment or materials, and in accordance with the respective administrative regulations. The selection decisions will be made by the Steering Committee of the profile area ICT.

Applications can be submitted by students or junior researchers (up to Ph.D. candidate level, no postdocs) and need to include the following:

- An abstract of the individual ICT research contribution including a list of publications (max. two pages)
- A short CV (max one page)
- A brief support letter by the academic supervisor or supervisors (one paragraph would be sufficient)

Please send applications by email (attachments in PDF format) to

**[ict@profileareas.rwth-aachen.de](mailto:ict@profileareas.rwth-aachen.de)**

**before Monday, 31 July, 2017.**
